

## BOARDING NEWSLETTER AUGUST 2024

Dear Parents and Guardians,

A warm welcome to ALL!

What a brisk, energetic month we have had since school started. The new boarders have acclimatized well and understand the routines and procedures at boarding.

We have had some exciting activities over the course of the last few weeks. We have had cake baking, pasta cooking, board games, movie evening, etc.

We started off with the Pre IB sessions in July with students from various schools enrolling here to complete their IBDP programme. It began with a campus tour followed by a week of study fun visiting malls cookery sessions - embracing every opportunity to learn and interact with their new fellow mates.

*Snapshots of various activities at boarding*

Boarding students participated in the Flag hoisting ceremony in the school and volunteered enthusiastically in the house stall on Independence day celebrations. Post the celebrations, they also learnt making colourful kites in groups.

We encourage students to participate in at least one activity during the weekend- Chess/Athletics/Karate/Yoga/ Drama. These activities are important in nurturing emotional intelligence and expose students to a wide variety of different skills from communication, team building etc which is valuable in life and college. We also continue to highlight the importance of academics and study sessions with added focus this year, while maintaining an active life.

*Kush Kundalia, on behalf of all new students says - ' the boarding experience at Indus is truly unparalleled, combining a supportive community with enriching activities, excellent food, comprehensive care that foster both personal growth and well-being ' where students thrive and create memories of a lifetime'*

Two projects initiated this month by boarders, are - revamping and upgradation of the community school library to a mini knowledge hub and the Bio -Gas fuel project. We shall keep you posted on this at regular intervals.

The annual routine health check-up camp was undertaken by Dr Jyoti and her team flawlessly, to identify any health issue early on, enabling early treatment and intervention to avoid health problems and enhance health outcomes.

We try to make a birthday special in a boarding. Here are the glimpses. :-)

Boarders outing to Mall- A curious blend of retail therapy and learning life skills.

We also completed our routine surprise check of all the hostels - students' space and cupboards during this month.

Students had their most popular Socials on 31 August - it was a freshers event fostering a sense of community and belonging among new and existing students. The new academic year brings happiness and joy with the arrival of the newcomers and creating memories for all.

We have embraced parents as the valuable partners they are. You partner with us and parent better. Producing lifelong learners is not simply about cramming for exams and teaching for the test. It is about inspiring pupils, enthusing them to work independently, empowering them to navigate the challenges and uncertainties of an unpredictable world with care, respect, empathy, tolerance

Thank you.

Warm regards,

Ms Joyee Lahiri

Head of Boarding
